**Subject:** Re: MRAC Special Event

Don,

I've been asked to send you this announcement that will be in QST.

"W9RH, Milwaukee Radio Amateurs' Club commemorating its 85th anniversary, 000UTC to 2400UTC March 16,2001 on 28.470,14.270.7.260 and 144.220. For a certificate send QSL and a 9x12 SASE to W9RH/ Tom Schulte 8802 Castle Court, Franklin Wi 53132."

We will also be issue a certificate via e-mail send QSL information to [W9RH@arri.net](mailto:W9RH@arri.net).

Contact person is Tom Schulte, KB9RLB  
Phone 414-529-2512  
E-mail [kb9rlb@wi.rr.com](mailto:kb9rlb@wi.rr.com)

Thank you  
Tom KB9RLB

Thanks, Tom, for the info. I'll put the announcement in my QST column. Congratulations to the MRAC. Hope your event is successful.

73,  
Don  
W9IXG

p.s. I trust you meant to say March 16, 2002 so pass the correction to ARRL.

Hi Tom:

I hope that the club's anniversary event goes smoothly. A couple of thoughts;

1. Have it run for a 24 hour Zulu day to avoid confusion by the participants from the club. 02-03-17 0000 UTC to 02-03-17 2400 UTC would be from 6:00PM CST Saturday, 3-16 to 6:00PM CST Sunday, 3-17.
2. Is there some reason why you are considering limiting it to 3 HF bands? I would like to be up all night on 160 meters!
3. Promulgate a standard announcement to periodically insert when operating, explaining the significance of the event.
4. I would like to see the club get a "special events" call to use. My suggestion would be "W85RH." And of course they could periodically announce "QSL via W9RH."
5. If not a special call, at least have the folks sign "W9RH/85."
6. Be sure to have a schedule available of operating times on each band such that we could send a contact to another frequency that is "now active."
7. Have a separate, special certificate for those that work us on all 3 bands as originally planned. Or, if we do use all 9 HF and MF bands an award for those that work us on as many as possible. Perhaps the top 5 or 10 entrants.
8. I would like to have a period of time some of us could devote to the four lowest VHF/UHF bands (weak signal and FM simplex), and have another special certificate for those that would work 3 out of 4 bands above 50 MHz. Maybe schedule 2 or 3 hours during prime time that could be promoted on the local repeaters.
9. Will we reply with QSL cards for each contact as well as the certificate? One certificate regardless of the number of contacts?

I s'pose that as soon as I send this I'll think of some other issues! Anyway, I'll work on a certificate. I'm attaching an example of the one I use for my morning 6 meter net. Using that style, a separate certificate could be printed out for each contact as the requests come in, making it more personal and avoiding a large inventory! Signature of a club officer and/or the station operator that made the contact would be a nice touch.

I don't want to make this too complicated!!

## **MRAC 85<sup>th</sup> Anniversary Special Event**

The Milwaukee Radio Amateurs' Club was founded in January 1917 and will be 85 years old this January 2002. To celebrate its birthday the MRAC will put the W9RH call on the air as a special event station. This will happen on March 16, 2002 from 0000UTC to 2400UTC, that is 6:00pm on March 15<sup>th</sup> to 6:00pm on March 16<sup>th</sup>.

How can you as members help? Well, we will need as many operators as many as we can get to help make this a successful event. Those who wish to operate will do so from their own location using their own equipment and using the call of W9RH/your call. You must operate within the limits of your license. That is if you are a general class you can only work in the general class bands, technician in the technician bands only. If you can only work the bands for an hour or so at a particular time that will be fine because we need operators for the full 24 hours. The bands that the W9Rh call will be on are all the HF and VHF so that everyone, no matter what license classes, can operate. Some frequencies that will be used are 28.470, 14.270, 7.260 and 144.220, modes of operation will be CW and SSB. If you don't have a station at home try to get together with other club member and operate from their location. It's always nice to have two at a station, one for talking the other for logging.

You say you are unable to operator on the air? Well how about designing a certificate or qsl card? A certificate will be sent to all those who contact W9RH providing they include a 9x12 SASE and a QSL card to any DX station that might happen to ask for one. A printable certificate will be sent to those who send QSL information to W9RH @arrl.net via e-mail.

If you can help in any way contact me Tom Schulte, KB9RLB, at our next club meeting, via e-mail at [KB9RLB@arrl.net](mailto:KB9RLB@arrl.net) or at 414-529-2512 after 4:00pm. Let's make this a success.

73, Tom KB9RLB

**Milwaukee Radio Amateurs' Club  
85<sup>th</sup> Anniversary Event**

January 2002 the MRAC becomes 85 years old. To celebrate this event club members will be using the club call on the air.

**W9RH** will be on the air from 0000Z to 2400Z March 16<sup>th</sup> (6:00pm March 15<sup>th</sup> to 6:00pm March 16<sup>th</sup>) on 28.470, 21.350, 14.270, and other bands using CW, SSB and FM.

For a certificate send QSL and 9x12 SASE to  
W9RH/ Tom Schulte 8802 Castle Court, Franklin WI 53132

For a certificate via e-mail send QSL information to  
W9RH@arrl.net

For any other information contact W9RH at the above e-mail address. Don't forget to check out the MRAC history page.

**MRAC Special Event  
March 16,2002**

Use call W9RH/ 85

The FCC requires that you ID with your own call at least once per hour.

You must work the bands within the Limits of YOUR CLASS of LICENISE.

All bands can be worked and all modes. The following frequencies must be use during the event because these were published frequencies in QST, CQ and other publications. Check to see if someone using the W9RH call is operating on these frequencies if not try to use them, +/- 20khz. They are: 28.470, 14.270, 7.260 and 144.220.

**QSL Information:** QSL information can be found in the March issues of QST page 103 and CQ magazine page 8.

**Send QSL information along with a 9x12 SASE to**

**KB9RLB the call is good in the call book data base**

**or**

**W9RH/ Tom Schulte**

**8802 Castle Court**

**Franklin, WI 53132**

**Electronic QSL:** Send QSL information to **W9RH@arrl.net**

You will receive a certificate that can be printed out on your own computer.

## **Milwaukee Radio Amateurs' Club**

MRAC was founded in January 1917 and became affiliated with the ARRL in 1919. The club continued to meet during both world wars at member's homes. We currently meet the last Thursday of the month.

The MRAC is the only VEC in the state of Wisconsin and we function as our own VE in the Milwaukee area. The club does testing on the last Saturday of the month except during the summer months. We also have on the air code class given by one of our club members and we have classes for all the amateur licenses. The MRAC does participate in Field Day and we own all of our equipment and encourage anyone who would like to join use to bring along any of their own equipment if they wish.

I hope that everyone participating in this event will have a good time. We are not out to break any records just enjoy yourself.

I ask that you please keep an accurate record of all contacts made. Put your call sign on the log sheets and also sign them.

Return your log sheets to me as soon as possible either at the next club meeting or if you wish through the mail.

Phone Number: 414-529-2512 after 4:00pm

E-mail: KB9RLB@arrl.net

Address: Tom Schulte  
8802 Castle Court  
Franklin, WI 53132

Have fun,  
Tom KB9RLB

# MILWAUKEE RADIO AMATEURS' CLUB

## 85<sup>th</sup> Anniversary Event

Date: March 16, 2002

Time: 0000UTC to 2400UTC a twenty-four hour event

In addition, N7CAR, whom you spoke with on Friday night said he'll send a H/O envelope. Doesn't mind if the certificate is folded.

And, may see a QSL request from VE6 LHW. Met him

on 10m @ 2032 hrs Sat. Had a brief & difficult contact as conditions were dropping. He seemed more interested in providing his QSL info than in getting ours

March 17, 2002

Good Morning Tom:

First of all thank you for taking on the responsibility of organizing the Club's 85<sup>th</sup> anniversary event. You did an outstanding job and I'm sure the Club will be grateful

Enclosed are my log and a few comments that I will forward to Pancho for publication if he sees fit, or, for you to use as a summary of the event.

160 Meter Net, 1.895 MHz, 00:00 UTC

When conditions are just average there are usually more than 20 participants from seven to ten states East of the Mississippi. Horrendous static, apparently due to the storm in the East that dumped snow on the North Country the night before, limited the check-ins. My location, West of the rest, was rather quiet. The aggravation of listening to the static prompted most of the nine stations to check out after their second TX and the net lasted only 28 minutes. This was a big disappointment for me.

PSK-31, 10 and 20 meters Friday evening and Saturday Morning

I had earlier commented, in my weekly newsletter, that PSK was very slow and would not be a good contest mode. This was born out by my experience in our special event. Forty valid QSO's in six hours, 11 minutes!! A RTTY station calling CQ, in a 'test, such as I was, would easily quadruple that number. Anyway, part of the slowness was associated with DX (non-English speaking) stations making maximum use of the macros set up in their PSK software. I got even by retaliating with my brag file when I read about their station and responding with all the personal information when they sent theirs along!! However, I could not respond to the station that sent me his local barometric pressure! Seriously, all were impressed with the Club's longevity and passed along their congratulations.

Bottom Line.

49 valid QSO's  
14 States, one Canadian Province  
Nine Stations, 4 States on LSB  
Forty Stations, 10 More States on PSK-31  
18 DXCC Entities, all on PSK-31

We should do this every year, but make a determine effort to include members with out HF stations or privileges. I had hope KA9MWT would join me but she was under the weather.

73, Sherm KB9Q

Not much chance to operate and an antenna best for contacts over 1000 miles  
 (as it seemed this weekend) so only 5 contacts (but one ran for 45 minutes).  
 I left 40 and 20 to the guys who signed up (and checked and saw they were  
 there).

0047z	18.125 MHz K4JH	SSB 57 Cliff
Florida		
2121z	21.334 MHz KL1V	SSB 59 Kent Alaska
2134z	21.330 MHz WB4YSJ/mobile 4	SSB 59 Jim Alabama
2141z	21.330 MHz W1HGY	SSB 59 Ted Mass
2146z (till 2230z)	21.330 MHz KB6RHM	SSB 59 Don Texas

Thanks for the work setting this up (and also QSLing too).

Dave WB9BWP

I also received today via regular mail a sketch from Joe Stumberg KA9DFZ  
 for his idea of a certificate. I'll scan tomorrow and email.
